A FULLSTACK REACT *MASTERCLASS*

TINYHOUSE

Week 4

In week 4, we conclude the course by finalizing the last remaining features of our app. In week 4, we'll:

- Build the mutation to allow users to book listings from other users.
- Deploy our application with Heroku.

Here is a further breakdown of week 3.

Day 1

> ➡️ Go here for a detailed breakdown of Week 4 | Day 1.
